THE DUMA ELECTIONS.

Editor and Manager -

THE DUMA ELECTIONS.

In little more than five weeks the new Duma will be sitting in St. Petersburg, and in some of the villages the elections have already begun. The Continental Press, which is not favourable to the Russian Bureaucracy, is filled with stories of the way in which the Government is tampering, and is preparing to tamper, with the elections. It is accused of favouring by every means in its power the candidates of the Right, namely, the League of the Russian People, the Union of Law and Order, and the Octobrists, and of paralysing and disorganising the parties of the Opposition. The lists of voters are filled up irregularly, newspapers are suppressed, meetings of electors are forbidden, and suspects are marched of to Siberia by the hundred. The Government has completely regained the upper hand in the provinces, and is taking care that a "good" Duma, as the phrase goes, shall be returned. Had the St. Petersburg officials not been too proud to learn from Servia and Bulgaria, they might have secured, a proper majority in the first Duma, but there is now every sign that the methods of those States have been studied and carefully laid to heart. It is rather surprising that Russia should ever have allowed the little Slav States at its door to possess elected houses, for the example must necessarily have been bad from the Bureaucratic the little Slav States at its door to possesse elected houses, for the example must necess-sarily have been bad from the Bureaucratio point of view, but having allowed the creation of the Skuptschina, it would have been well also to have studied the Government methods. also to have studied the Government magnetic of electing them. That has now apparently been done, and we may expect the new Duma to reflect the amount of skill which the Rus-sian officials have acquired in the manner in which elections in the minor. Slav States are

GERMAN TRADE IN TURKEY.

There was a time when English manufactures and goods held the first place in Tarkey, and were approached by those of no other Power. But that is all changed now, and for some years past, Germany has been all powerful at the Porte. A correspondent of the 'Daily Telegraph,' witting from Constantinople, gives several instances in which German contractors and financiers have been favoured to the exclusion of English and other non-German competitors. For this he gives two reasons, first, that the German Government works, 'in complete accord with its national commerce, and any first-class firm can count on being backed to the tumos by the German Embassy. Secondly, that English finance and industry, finding themselves without support from the Government, have gradually become dispirited, and have abandoned the field to their Teutonic rivals. The correspondent urges that our Ambassador should strongly support our contractors and financiers in their endeavour to recover a share of the trade of Turkey, but he seems to overlook the fact that our diplomatists would urge in vain. The people really responsible for the boyoct of all things English in Turkey are the fanatics who have never ceased to insult the Sultan and the Turks: the people who talk of "Abdul the Damned" and so on. The Turks are a slow race to rouse, but even they cannot be supposed to overlook the torrent of insults and invective poured out on them by the Exeter Hall crew.

CHIEF GAINS AND LOSSES.

Bealin, January 28.
The chief party gains and losses are: Conservatives, 7 seats gained, 2 lost; Imperialists, 2 and 4; Liberals, 9 and 9; Radioals, 4 and 2; Centre, 2 and 4; Foles, 2 seats gained; Guelpha; 3 seats lost; Socialists, 1 gained and 20 lost. In many constituencies while one party definitely lost a seat, it is uncertain which other party will win it in the second ballot, hence the inequality of the present totals of losses and gains.

and gains:

Her Denburg, in the course of an interview, stated that the attitude of the Centre towards the Colosies had lost its significance, as a majority was now secured without ir. While this is possibly true in a general sease, the cooperation of the Radicals and Conservatives is most unlikely. The forms will probably remain an opposition party: to most purposes the Centre will thus still hold the balance.

They and se isst night: such a critical spirit deserves its reward in real effort on the part of the performers; and I believe that in the operas that suit them, perhaps in all the reperto're (once they are acolimatised), they will make the effort with success. At least, I am sure we all wish them that auccess: it is quite likely they will ablieve it in "Tosoa."

"LA TOSOA."

"LA TOSOA."

"LA TOSOA."

"LA Tosoa" was a real pleasure. Italy seems so prolife in sopranos, tenors, and conductors, and they all seem to have "Tosoa" in the blood. I have not yet seen a performance i which some part or some singer was not really good. On Friday night it was—almost all—very good. Pethaps the only fult was that once or twice Sig. Campanini seemed to smother its volins: the "cellos" were so promi ent in one place—at 'Senti l'ora é vicina"—(3rd act), as to roughen and almost break up the movement of the unusic, and the manic of "Tosoa" suffers from that. guent in one place—at 'Senti l'ora é vicina' (3rd act), as to roughen and almost break up the movement of the music, and the music of "Tosca" suffers from that. Heard for the first time it repels, then from its curious strength, its approach to savagery, its rapid passion and eagerness for love or death, it attracts and finally conquers. The whole scheme is so primitive, as primitive and earnest as a Huguenot chorale: people who can love, who can kill, who can believe are amongst this world's exernities; and the music which expresses them, should, once it can conquer our moders practical apathy, be also eternal, sounding a dimecho within our own emotions.

To return to "La Tosca," Signora Orbellini and Signor Tschierdo were both delightful. Her entry and all her singing and acting in the first act were all one could hope for, replete with the most minute touches of tenderness, malice, reproach, scorm—but the polite scorn of a diva for an old "vivear." Her second act was rather too violent. I heard Pandolfini and Bellincioui in it. Pandolfini was, and will be I believe, always for those who heard her, "In Tosca" incarnate, as "Li Tosca" must have been. Bellincioni seemed to be one of the eleverest women who ever stedied the part—but transformed it. In the 3rd act Signo. Orbellini was again perfect in everything, and her partner was nearly sc. His great song. 'E luceran le stelle" was admirable. The opening, "O dolci mani," we a delight; but he borders on conventior, and he has not always finish; three are moments of uncertainty and too much individuality. But his voice is charming, and has that openness and distance of clear tone one longs for in a lyric tenor. Sig. Arrighetti was quite a good Scarpia, but his voice seems unsuitable, as it did somstimes in "Otallo." He does not command all his notes. The chouse was packed, as on Thorsday, and, I understand, Saturday night. If that continues, they will be ab's to affird one or two more really good singers, and to "carry off" these operas which at present would se

A TOURIST'S COMPLAINT.

To the Editor of the 'Edyptian Gazette."

Sir,—We tourists have a good deal to be thankful for, in view of the excessive cold all over Borope, in finding ourselves in Egypt, although even here it is by no means warm. However, this is not what I wish to write about. Some days ago when at Assiont it was so bitterly cold that no amount of pestering on the part of the donkey boys or drivers, mantered on Cook's landing stage, would overcome our persuasion to go for a sharp walk, thinking it the only means of warming our hitherto frozen boiles. On enquiry, the dragoman-informed us that there was a lovely promanade on the front, with gardens, etc., and we had no difficulty in following his instructions. The part was indeed onexpectelly prestly with the Coptio palacee as a background, but alas! for the leveliness of the promenade. I had not gone far when I fell on my side, spraining my ankle. The roughness and stones strewn about made it painful to proceed, we hailed a vehicle and returned to our stumer, where I had to lay up. We have been wondering how the inhabitants of the place can placidly put up with such an apology for a road on the river front, when by a very small outley it might indeed be made into a most desirable promenade. Naturally we enquired who was responsible for the roads; the dragoman told us it was the Governor, mudir I think was the word he used; another said it was the Manicipality, but he was promptly sat uppo, and told that there was no such body in Assiout; then a third very knowingly dame forward, and said that it might be the dovernor, but that he had 10 power left him to do anything, without first consulting the Ministry of the Interior, or some such authority, generally represented in the provinces by young and inexperienced University men, and that under the circumstancess the Governor, we are rather scapitical about these views, we would be grateful for any estimated the sure of the in lisa of damegas, which I could have claimed in a civil zed country.

CAIRO MUSEUM.

TO THE EDITOR OF THE "EGYPTIAN GAZETTE" TO THE EDITOR OF THE "EGYPTIAN GAZETTE"

Sit,—It seems incredible that the Massem should be closed for five consecutive days at this time of the year when the visitors' season is at its height. Two of my frieads on their way to South Africa came purposely to Cairo to see the Pyramids and the Museum, but had to less re without seeing the latter. Three other friends were here during Wednesday, Thursday, Friday, Saturday, and left on Sunday without being able to see the Museum. I feel sure these are not the only cases of disappointment.

Sir,—Mr. Secretary A. S. Preston, in his letter published in your issue of 26th inst, does not gainesy the facts stated in mine of previous date. The meany suggests abould call at his office to have my facts set right, assuming of course they are not in order, which might perhaps be the case in some unimportant particular not affecting the principle involved. IS THIS A CAT-CH?

TO THE EDITOR OF THE 'EGYPTIAN GAZETTE.

To the Editor of the 'Edyptian Gazette.'

Sir,—While I was passing to-day at 2 p.m. through some lane in Paolino something, which made me sick at heart, stopped me. This was a tiny cat mewing and mewing over the top of a tree. I had to ask a servant—sitting at the door of a house near by—to get it down. The poor little thing was feeling cold, hungry, and miserable. I was told that the animal was being tormested in the morning by some wicked little boys. I would only draw the attention of the Alex. CRICKET.

ALEXANDRIA v. CAIRO.

Played on Saturday at Ghrzireh. Both sides were fairly well represented, though Alexandria lacked the services of Mustard, and Cairo were without Capt. Rome and several other more than useful orioketers. Alexandria won the toss and went in to bata 11 a.m. Marsden and McLaren tried to pull a rising ball from Wyatty and had to retire caught behind the wicket. The next ball swarved in the air and bowled H.P. Carver. In his next over Wyattook two more wickets with successive balls. H.B. Carver fell. to a swe-ving yorker, and Peel to a fast good length ball, which he failed to time. Macaulay and Marsden then took the score to 19, when the former was bowled by Gravés. Of the rest of the innings the less said the better; except Marsden, who showed excellent defence throughout, no one could stay against Wyatt, and when Marsden was bowled by a beauty at 58 all chance of even a passable, score was gone. At the same total McLean fell to a good long field catch by Capt. Liddell, and the innings was over. Wyatt, till now unlucky against Alexandria, had a great day. We have only once or twice seen him bowl better (considering fie want of practice) and overyone was corry that he did not carry his bat. ayed on Saturday at Ghrz'reb. Both side fairly well represented, though Alexandri

only succembing to a really good ball, and everyone was corry that be did not carry his bat.

At lunch time Cairo had made 88 for three wickers Alexandria were a little shaky in the slips to start with. Bathurst being let off early in his useful innings of 28. After lunch Capt. Liddell quickly put Cairo in a very comfortable position. His innings of 66 was in every way a fine effort. He hit very hard on the officide and rumbered nine boundary hits and seven threes among his strokes.

The remainder of the Cairo team were obviously inclined to live up to the adage, "A short life but a merry one," and gave the Alexandria outfields much to 40. Maclaren and Gaver made good catches and Barnard, besides effecting a charac cristic catch in the slips, showed great courage in attempting the "tour de torce" of catching a big on-drive in the middle of his chest. Doubtless owing to an accident the ball rolled Cf., leaving a bruise to mark its impact and a grateful recollection of the event in the minds of the spectators. Sanderson made a useful debut, scoring 28 and keeping wicket well for Cairo. Dawsen was not at his lest behind the stukes.

In a poor light Alexandria fared badly in their recond attempt, and when stumps were drawn seven of their wickets were down On the day's play Cairo were undoubtedly the better side, but a first innings of only 58 is exceptional in Egyptian crieket. Scores:—

GOLF.

Cairo has been a good deal enlivened the last faw days by the arrival of our visitors last f:w dsys by the arrival of our visitors from Alexandris. The football, oricket, and golf matches have been all keenly contested. We hope that next year tennis racquets and polo will be added to the list of competitors. The A'exandria sportsmen seem to be able to hold their own at most gemes. They are all good sportamen. We welcomed their arrival, and deplore their departure. The football match proved most exciting, and afer a keen stroggle the game anded in a draw. In the cicket Cairo triumphid. Alexandria had their revenge at golf. Below is the score.

The semi finals were keenly contested and very exciting.

The two band teams played an extremely fast game, the 1st team winning by a goal. The match between "H" Coy, of the Inniskillings and the Army Service Corps was the best of the whole competition. "H" Coy, played a very good gam, and only the brilliant play of the corp's goalkeeper, B. Jordan, kept them out. Gartland, the corps half back, worked like a Trojun. Three replays were necessary before a splendid combined movement by the corps forwards ended in Baxter coring with a beautiful shot. 'H" Coy, worked hard to equalize, but Jordan and Gartland were impassible.

After a short rest the finalists turned out After a short rest the finalists torned out. It promised to be an easy victory for the band, as the corps were still a bit tired after their exertions in the semi-final. But to the delight of their supporters the corps made a determined attack at the very start and Baxter scored with a magnificent shot. The band made streamous efforts to draw level but Jordan and Gartland kent their coal intact in magnificant streamous efforts to draw level out Sorials and Gartland kept their goal intact in magnificent style. Time after time their fine efforts were applanded. The Army Service Corps well deserved their aucosss. Measrs J. S. Peacook and C. P. "The Egyptian Cezette" Series
is the most artistic collection to be found
in Egypt.

TO OUR VISITORS.

The Egyptian Gazette has much pleasure presenting to its subscribers the accompanyin presenting to its subscribers the accompanying description of some of the many interesting routes by which they may travel homewards. Great care has been taken to arrange them as accurately and concisely as possible, and it will be found that none of them were fraught with difficulty. In choosing the route home there are several things to be considered. To begin with there is the difference in climate between Egypt and the various points at which you may arrive in Europe.

The fine steamers of the North German Lloyd leave Alexandria every Wednesday during the season for Naples, the voyage being only 3 days.

NAPLES is also reached in 10 hours from Palermo by the Florio Rubattino Co.'s steamers, which leave daily. One cannot approach Naples or leave it without wishing to explore some of its islands, besides the lovely places on its bay—Castellamare and Sorrento. The small steamer that takes you to Sorrento Iyou can drive tool will take you on to Capri.

From Naples to ROME is a train journey of but five hours All who can will devote at least one week to visiting the many historical and interesting portions of the Eternal City, whose charms and beauties are too well-known to need comment here.

Leaving the Eternal City with much regret, a railway journey of five hours brings you to FLORENCE, where another week can well be spent admiring the City of Flowers, and its surrounding country. In Florence itself the churches and galleries are of absorbing interest, whilst the logal promendes and excursions should not be officially in the control of the finest walks in Europe, opened 35 years ago, goes winding up through the hills a distance of four miles. The most deligitful excursion outside Florence is that to Vallonbrosa, with its Monastery 3,300 feet above the sea level. This is made first by ordinary-train from Florence to St. Mero, thence by cogwheel railway to Saltino-The ascent through groves of oaks takes an hour, and most striking panoramas are unfolded to view.

PISA is easily reached figur Florence in about 2 hours; here there is a fine Cathedral and the Leaning Tower. A stay of at least one night should if possible be made in order to enjoy the view from the Campanile at sunset. VIAREGGIO. One of the most delightful places on the Italian Riviera near Pisa and on the main line from Rome to Germa. It is a very convenient half-way house between Egypt and England, and where living is reasonable and, the air and surroundings exceptionally good. This depends partly upon the month in which you leave Egypt, for Cairo in January may be a little waimer than the Riviera, and pessibly not so waim as Sicily, but in March it will be warmer than Rome, and more uniformly warm than many other places in Europe. Many people leave Egypt far too early in the year, for as a rule the weather in April and May is perfect. The warmest place to go to on leaving Egypt is Sicily.

Some will want to take into consideration the number of days to be spent at sea, and we therefore subjoin a list showing the time occupied on each of the various routes between Egypt and the Continent of Europe.

The direct route to Sicily is by the Florio-Rubattino Co's steamers, which leave Alexandria weekly for MESSINA, where one takes train to TAORMINA, one of the most charming and popular places on the island. Giardini is the station at which to alight, and the drive up to Taormina is most delightful, occopying abut one hour. In and around the town is not not interest the visitor. The theatre is of Greek origin, but restored under the Romans. CATANIA is the starting place for the ascent of Etna, and here also is a fine Cathedral. The Greek, Roman, and Saracenic remains that are found all over the island, are an endless source of pleasure. SYRACUSE has an interesting history, having been a Greek city, which was designed by Demosthenes in n. c. 413, and taken by the Romans in n. c. 212, when Archimetes was slain—his tomb is to be seen. The cathedral was once an ancient pagan temple. PALERMO, with about 300,000 inhabitants, is the capital of the Island, and enjoys a deligthful climate. Much of interest is to be found in this fine city. The Palazzo Reale is of Saracenic origin and close to it the church of S. Giovannia degli Erimiti with its picturesque cloisters. The Cathedral, Museum, Botanic Gardens, Villa Giulia and Royal Park are also worth a visit.

As regards the train journeys from Cairot ties shortest is that to Alexandria, without change (3 hours). That to Port Said can now be made without change in 4½ hours.

The least expensive way to England is by the Moss, Papayanni, Prince, and Westoot lines of steamers from Alexandria to Liverpoo The German Levant line has also good steamer from Alexandria to Hamburg.

HOTEL MILAN-BRISTOL

VENICE is a 5 hours' journey by rail from Milan, and one of the most delightful places imaginable to pass a quiet stay. The total absence of vehicular traffic strikes one as very strange; no horse, cart, carriage or bicycle is to be seen, and yet there is the sound of life at every turn. The approach the Venice from the Adriatic is unlike that of any other seaport. The town seems to be gradually, like Aphrodite, born of the sea, no hills behind, no stretches of rock, but first the tops of Campaniles appear above the horizon, then slowly the whole glittering town rises like a fairy mirage out of the calm lagoon.

Going northwards from Milan you make the tour of the beau-tiful Italian lakes.

COMO, the birthplace of the younger Pliny, is reached in one-and-a-quarter hours by train by way of Monza:

Boats leave Como frequently for the other towns on the lake, which is very beautiful, and the scenery on either side going up the lake is most each name over a stream of the come. In the same position but more moderate CHARLES WALTHER Propr.

Switzerland, the heart of Europe, has been described as "A cluster of delights and grandeurs."

LUGANO is some 20 miles from Como, and reached by train in one-and-a-half hours. It has a population of 10,000 people and is charmingly situated on the Lake of Lugano, amidst lovely Italian scenery. Aro nd it rise M San Salvatore, M. de Caprino End M. Generoso.

LOCARNO may be reached by rail from Bellinzona in forty minutes. This pretty town, situated at the top of Lake Maggiore, has a mild climate, and is an excellent winter resort. The church Madouna del Sasso, situated above the town, is worth a visit, as it contains interesting paintings, "Entombment," by Ciseri, and "The Flight into Egypt," by Branantion.

LUCERNE—A striking picture on the Lake of Lucerne facing the Rigi and Pilatus and the snow-clad Alps.

In and around the town the walks are charming, and the excursions to be made from Lucerne by boat, rail, etc., are very numerous? The Lake of Lucerne abounds in delightful excursions, those to the Rigi, Pilatus, Burgenstock and Sonnemberg needing a special visit each. Other excursions on the lake can be made by steamer, and the ever-chang scenery on the trip from Lucerne to Fluelen is a source of delight to the lover of nature.

calumns and missoner of the comparable Campo Santa filled with its wonderful tombs. From Genoa to Milan is a matter of only three hours by rail. MILAN is a good centre for NorthernItally before making the tour of the Lakes. The Cathedral is the principal attraction, with its beautiful windows illustrating the History of the Bible. The public gardens and the monumental cemetery are also worth a visit. Between Bologna and Milan and only an hor randa-half from Milan is AMSOMAG GIORE, a renowned health resort on account of its thermal springs, change trains at Borgo San Domino and in half-an-hour you are at SALSOMAGGIORE (Italy.)

NORTHERN ITALY.

GENOA (La Superba).— The most pictures que and interesting city in Italy, with the record of having one of the lowest death averages of European cities and a phenomenally equable temperature—warm in winter and deliciously cool breezes from the surrounding mountains and the Mediterranean in summer.

A pleasantly situated village lying in the valley between Placenza and Parma, rapidly becoming famous for its waters, which are very rich in bromins and iedine, and the richest in the world is lithium, stontium, and iehthyol, and have been successfully used in the treatment of account reasonable in the real management.

GREECE and IONIAN ISLES.

Many people visitGreece after wintering in Egypt, as it is so easily reached from Alexardria; the climate in April is charming. The best steamers are those of the Khedivial Mail Co. and Russian Steam Navigation Co If possible tourists should arrange to be in Athens for the Orthodox Easter in order to witness the Good Friday and Easter Eve ceremonies, and to be present at the dancing on the Easter Tuesday festival held at Megara. It is worth while to spend a few days. It is worth while to spend a few days. It is considered the construction of the beauty of the scenery There is also good snipe and quall hooting to be had.

To the Printers of Egypt.

SALISBURY SQUARE.

FLEET STREET. LONDON, E.C.

EN years ago we established in London the CAXTON TYPE FOUNDRY to manufacture Printing Types on the interchangeable time and labor-saving principles of Standard Point Line, and Point Set on Point Body. We claimed, and lave established the statement, that the exclusive use of Caxton Printing Types would save one-fourth of the compositors time in the setting of all kinds of hand composition. At the present time over 10,000 Printers in the United Kingdom, Australasis. Canada, Africa, the Indian Empire and other British possessions are sustomers of the Caxton Type Foundry. ers of the Caxton Type Foundry.

As is well known, the type industry of America is controlled by a type TRUST; and in the United Kingdom by a similar organization known as the type RING of British Type Manufacturers.

The CAXTON TYPE FOUNDRY was founded to oppose all such combination It is independent of all such connections, and is therefore, selling type at a lower price, and furthermore, guarantees to sell at the same price in all parts of the British Empire.

Another branch is the CAXTON WOOD MILLS, the largest and most complete Wood Working Plant in the British Empire exclusively employed in the production of space and labour saving woodwork for Printers. We have made a speciality of using hard wood exclusively in all our productions. Wood Furniture and Reglet is made out of Tungstone, a specially close-grained Wood which is so heavy that it sights in water, and is therefore particularly valuable.

We are also makers of the widest and the most complete range of PLATEN PRESSES in the World, comprising the well-known "Caxton" Platen, for fine work: the light-running "Swift Platen for small printers: the Haddon "Improved Gordon," the light-running "Swift Platen for small printers: the Haddon "Improved Gordon," autholic for any jobbing printer: the Haddon "Safety Platen," capable of printing 2,500 full formes per hour: the Haddon "Improved Victoria," modelled on the Cropper principle, but superior in construction and output.

We invite enquiries, when complete Catalogues with all details will be sent

Yours faithfully.
